# PART I.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 9th January 1914.*

READ—

The summary of discussion in the Representative Assembly of 1912 on subject No. 88 regarding the necessity to provide further facilities for Shanbhogs and Patels being instructed in subjects pertaining to their duties.

2. Letter No. 2059, dated the 14th August 1913, from the Revenue Commissioner in Mysore furnishing his opinion on the subject.

---

No. R. 5118-26—L. R. 603-12-4, DATED BANGALORE, 9TH JANUARY 1914.

ORDER THEREON.—Government have in their Proceedings Nos. R. 1191-20—R. M. 38-05-8 and R. 5671-80—R. M. 521-05-12, dated 17th March and 4th December 1906, respectively, prescribed qualifications for Shanbhog and Pateli offices. Arrangements have also been made to give them necessary training in survey work. Beyond this, Government cannot undertake to give the village officers instruction in all items of work. As only competent and qualified men will be selected for appointment as Patels and Shanbhogs it rests with the men concerned to qualify themselves for appointment by learning their work beforehand.

2. The member who mooted the subject may be informed accordingly.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 9th January 1914.*

READ AGAIN—

Government Order No. 4371-4—L. R. 97-08-4, dated 5th January 1909, approving of the Revenue Commissioner's proposal to close the Shekdari Training School at Bangalore, as also his suggestions regarding future recruitment into the Shekdari service.

READ—

Application dated 15th November 1912, from certain Government officials undergoing Shekdari training in the Rai Bahadur Arcot Narainswamy Mudaliar's Technical School, Bangalore, praying for the payment of full pay to them during the period of their training.

---

No. R. 5127-75—L. R. 301-12-6, DATED BANGALORE, 9TH JANUARY 1914.

ORDER THEREON.—After the abolition of the Shekdari Training School in accordance with the order referred to above, candidates for appointment as shekdars are required to undergo training either in the Mysore Engineering School or the Rai Bahadur Arcot Narainswamy Mudaliar's Technical School at Bangalore. In the case of Government officials they are required at present to undergo training at their own cost though they are exempted from payment of fees in the Mysore Engineering School in accordance with Government Order No. 4582-622—Edn. 76-12-4, dated 30th December 1912.

2. On a careful consideration of the question again, Government are of opinion that men who are already in Government service cannot be expected to forego their pay and undergo the course entirely at their own expense merely in the hope of bettering their prospects thereby and that some help should therefore be given to them. They, therefore, direct that qualified Government officials, who have been selected by the Deputy Commissioners to undergo training in the Shekdari class, be required to join the Mysore Engineering School and that they be granted half their salary as a stipend during the period of their training in the school.

3. In filling up vacancies in the grade of shekdars, the Deputy Commissioners will, other things being equal, give preference to men in service who are already trained and are otherwise eligible.

READ—

Subjects Nos. 144 and 145 of the Representative Assembly Proceedings of 1911 and 1912 respectively, representing that garden owners in the malnad have to remove earth from the adjacent kharab lands for the benefit of their gardens and that by constant removal of the earth the adjacent portions become fit to be added to the garden, that in such cases they may be permitted to use the land and assessment imposed only when the trees begin to yield.

2. Letter No. 4417, dated the 16th September 1913, from the Revenue Commissioner in Mysore, submitting with his opinion the reports of the Deputy Commissioners of the Hassan, Kadur and Shimoga Districts.

---

No. R. 5503-12—L. R. 457-11-5, DATED BANGALORE, 22ND JANUARY 1914.

ORDER THEREON.—The reports show that the practice in question chiefly prevails in the Kadur and the Shimoga Districts, where the owners of gardens on the hill slopes and valleys occasionally remove earth from adjacent kharab lands to replace the soil washed away by the rains.

2. The Revenue Commissioner suggests that such lands may be granted to the adjacent garden owners on light assessment subject to the condition that no other use should be made of them, except with the permission of Government and that in the event of other use being made, the assessment would be liable to be increased. The Superintendent of Survey, who was consulted in the matter, states that in resettled taluks in the malnad, all previous encroachments of the kind have been dealt with under the Resurvey Rules and recommends that in view of the trouble and expense necessary to maintain gardens, encroachments of the kind in question up to an extent of 3 guntas may in future be allowed free of assessment, any excess over this extent being assessed and included in the adjoining gardens.

3. Government are, under the circumstances, pleased to sanction the Survey Superintendent's recommendation.

K. R. SRINIVASIENGAR,

## Rules framed under the Tank Panchayat Regulation, I of 1911.

*Section 21, clauses (a) and (b).*

The following lists of voters and of persons eligible for election to the Panchayat shall be prepared by the Amildar or the Deputy Amildar of the taluk or sub-taluk concerned for each village for which the formation of a Panchayat is recommended or sanctioned under Section 3 :—

A.—List of raiyats holding dry lands or paying mohatarfa but not holding wet or garden lands in the village.

B.—List of raiyats holding wet or garden lands, with or without dry lands.

C.—List of persons qualified for election under Sections 4 and 5 of the Regulation, out of those mentioned in List A.

D.—List of persons qualified for election under Sections 4 and 5 of the Regulation, out of those mentioned in List B.

2. These lists shall be published by affixing copies thereof at the chavadi or at any other conspicuous place in the village and also by beat of tom-tom in the area concerned, at least one month before the date fixed for election.

3. Any raiyat, not included in the list but claiming to have the qualification entitling him to vote or to stand for election, or any person objecting to the entry of any name in the lists, may state his case either orally or in writing within a fortnight from the date of publication of the lists as aforesaid to the Amildar or the Deputy Amildar concerned.

4. A day not later than a week ahead should then be fixed for enquiring into the matter, due notice thereof being given to the parties interested.

5. On the day so fixed, an open enquiry about the claims or objections made as aforesaid shall be held by the Amildar or the Deputy Amildar who shall pass such orders as may be necessary. Such orders shall, unless they relate to circumstances falling under Section 5, classes (*a*) and (*b*) of the Regulation, be final.

6. No raiyat whose name is not entered in either of the lists A and B shall be entitled to vote, and no person outside List C or List D shall be eligible for election. Raiyats of List A can vote only for persons of List C and those of List B only for those of List D.

7. The date on which and the time and place at which election to the Panchayat shall be held, shall be fixed by the Amildar, due notice thereof being given to all concerned by beat of tom-tom in the village or otherwise, not less than one week before the date fixed for election. A copy of the notice shall also be hung up at the chavadi or at any other conspicuous place in the village.

8. On the day fixed for election, business shall be conducted as follows :—

(*a*) The Amildar or Deputy Amildar shall announce to the meeting the constitution of the Panchayat as sanctioned by Government, the total number of elected members fixed by the Deputy Commissioner under Section 6 of the Regulation, the number of members of Panchayat to be elected by the raiyats of List A from among the persons entered in List C and the number of members of Panchayat to be elected by the raiyats of List B from among those of List D.

(*b*) He shall then read out the names of persons entered in Lists C and D and then prepare two separate statements of all such persons from out of those of Lists C and D as may either themselves offer to stand for election or be suggested for candidature by those present and eligible to vote.

*Land Revenue, dated 24th January 1914.*

(*c*) The names of candidates for election as entered in these two statements shall then be read one after another and put to vote. The votes shall be taken by ballot in such manner as the presiding officer may consider desirable; and the number of votes obtained by each candidate recorded against his name in the statement.

(*d*) If there be an equal number of votes in favour of each of the last two or more persons to be selected, the names of such persons shall be put to vote again and the number of votes secured by each duly recorded.

(*e*) After all the names in the aforesaid two statements are put to vote and the votes secured by each recorded, they shall be arranged in two rows in the order of the number of votes secured, and as many persons as are required for the Panchayat from each row shall be taken in order from the top and declared as elected to the Panchayat.

(*f*) No election shall take place unless more than half the number of persons qualified to vote are present at the meeting.

*Section 21, clause (c).*

9. Ordinarily, the Panchayat should meet once every two months.

10. Special meetings may, on the requisition of two members or at the discretion of the Chairman, be held as often as necessary.

11. The Chairman shall give due notice of the date on which and the time and place at which the meeting shall be held, to all the members of the Panchayat.

12. No business shall be transacted at any meeting at which two-thirds of the members, not less than three in number, are not present.

13. Every meeting shall be presided over by the Chairman and in his absence by one of the members chosen by the meeting for the occasion.

14. All questions shall be decided by a majority of votes of the members present and voting, the Chairman having a casting vote in all cases of equality of votes.

15. All decisions arrived at shall be recorded in a book kept for the purpose and shall be signed by the Chairman.

16. The meeting of the Panchayat shall ordinarily be open to the public.

*Section 21, clause (d).*

17. Every Panchayat shall maintain the following accounts and books. Forms are appended:—

(*a*) Cash Book.

(*b*) Demand, Collection and Balance Register—Quarterly.

(*c*) Tank Register.

(*d*) Work Register.

(*e*) Proceedings Book. (Form not prescribed.)

(*f*) Ledger.

(*g*) Inspection Book.

(*h*) Inward and Outward Register (combined).

18. The accounts shall be systematically audited by one of the members of the Panchayat to be appointed by the Panchayat as "Auditor" for each year. They will be open to inspection by all Revenue and Public Works Department officers of and above the grade of shekdars and Public Works Department

Sub-Division Officers; and will be checked by the Amildar and Deputy Amildar once a quarter, a report of the result of such check being made to the Deputy Commissioner through the Sub-Division Officer. It shall be also the duty of the Huzur Jamabandi Officer to check these accounts regularly along with the village accounts and to certify to their accuracy.

*Section 21, clause (c).*

19. Every Panchayat shall submit the following accounts and returns to the Amildar or Deputy Amildar once a quarter not later than the 20th of October, January, April and July in each year:—

(1) Quarterly Demand, Collection and Balance Statement,

(2) Copies of Proceedings of the Panchayat, and

(3) Statement showing the progress of works undertaken by the Panchayat.

*Section 21, clause (f).*

20. For sums due from the Government to the Panchayat under Section 10, clauses (*c*), (*d*), (*e*) and (*f*), the Chairman of the Panchayat shall prepare a bill in the proper form and send it to the Deputy Commissioner through the Amildar or the Deputy Amildar of the taluk or sub-taluk. On receipt of the bill, the Deputy Commissioner shall issue a cheque for the amount due after verifying the demand.

21. As regards sums due to the Panchayat from private parties under Section 10, clauses (*a*) and (*b*), the Chairman shall issue written notices to defaulters giving a fortnight's time to pay up the dues. On failure to adjust the amount, he shall make a report to the Amildar or Deputy Amildar forthwith, furnishing full particulars of the claim against the defaulter based on the Panchayat accounts. The Amildar or the Deputy Amildar, shall, after satisfying himself about the correctness of the claim, proceed to recover the amount from the defaulters as arrears of land revenue under Section 17 of the Regulation.

22. All sums due to the Panchayat will be paid into the hands of the Chairman who shall grant a receipt for every payment made to him. Forms of receipts with counterfoils will, for this purpose, be numbered and kept in bound books containing 100 forms each.

23. All sums collected by the Chairman will be remitted to the treasury or deposited as required in Section 10 (2) of the Regulation before the close of the month in which they are recovered, or if they are recovered after the 25th of the month, before the close of the following month.

Report of the Agricultural Department in Mysore for 1912-13, submitted by the Director of Agriculture in Mysore with his letter No. 1030, dated the 8th October 1913.

---

No. R. 5719-30—AGRI. 45-13-6, DATED BANGALORE, 29TH JANUARY 1914.

ORDER THEREON.—Dr. Coleman was on combined leave and deputation during 7½ months of the year under report and Mr. H. V. Krishnayya was in charge of the Department during that period. On his return to duty on the 15th February 1913, Dr. Coleman was appointed as the Head of the Agricultural Department under the designation "Director of Agriculture in Mysore." During the period of his leave and deputation Dr. Coleman travelled in Germany, England, Canada and the United States, the Hawaiian Islands, Japan and the Philippines with a view to acquaint himself with the latest developments in scientific agriculture. Two reports have been presented by him dealing with the information gathered by him in regard to agricultural education and the general work connected with agricultural improvements in the countries which he visited. These reports will be issued separately. He has also submitted proposals for the re-organization of the Agricultural Department which are under the consideration of Government.

2. An important feature of the year's work was the progress of arrangements for starting an Agricultural School at the Hebbal Farm. The buildings were finished and the teaching staff consisting of one Assistant Chemist, one Assistant Botanist, one Assistant Mycologist, two Assistant Entomologists and one Assistant Farm Manager was sanctioned. The School was opened in July 1913 after the close of the year under review.

3. The work done in the Hebbal Farm comprised various experiments on ragi, paddy, sugarcane and cotton. The account of these experiments is interesting and shows that research is being pursued on lines that will yield results of great practical value. Government hope that in the near future the Department will be in a position to organise an extensive demonstration of the useful and profitable practice of green manuring for ragi. It is noted that the conservation of manure is engaging attention. This is an important subject and any improvements on the present methods are likely to have a marked influence on village sanitation. Useful work was carried on in the branches of Mycology and Entomology also.

4. It is satisfactory to note that considerable attention was paid to the demonstration and popularisation of improved methods of cultivation based on the results of experiments and investigations. The touring of almost the whole of the staff was good and every opportunity was taken to explain in person to the agriculturists improved agricultural methods and remedial measures against pests. About 15,000 lbs. of Broach and 4,000 lbs. of Cambodia Cotton seeds, or about thrice the quantity distributed in the previous year, were distributed to the raiyats at cost price for popularising the cultivation of these varieties which were experimented upon with great success. The advantages of green manuring for paddy were demonstrated in the lands of raiyats in the Kadur, Shimoga and Chitldrug Districts, and it was shown to them practically that the green manured plots yielded an increase varying from 16 to as high as 120 per cent over check plots manured in the usual way. Along with the above work, the advantages of the single seedling transplantation of paddy were also successfully shown and the raiyats have taken up the practice of their own accord.

5. The demand for improved implements was steadily on the increase, the realisations from the sales at the depot amounting to Rs. 6,762 as against Rs. 5,171 in the previous year. Endeavours are being made to start local agencies for the sale of spare parts of the implements so that raiyats may obtain them at short notice.

*Revenue (Agriculture), dated 29th January 1914.*

6. In regard to Mycological work, the effects of spraying in successfully combating the *Koleroga* of supari have now been proved beyond doubt, so much so that the garden owners have purchased for the season commencing with the 1st June 1913 materials sufficient to spray about 150 acres. A total extent of over 26 acres was sprayed during the year by the Department at the owner's expense. The chief entomological work done during the year was in connection with the *Kumbli-hula* or the hairy catterpiller, a serious pest of young crops found in many parts of the State with the exception of the malnad. The work consisted mainly in showing the raiyats how to keep down the pest by hand-picking the moths before they laid eggs, which course was recommended after experiments as the only effective measure. An extent of 267 acres was treated in this way in parts of the Chitaldrug District and the effect on the crops was very striking.

7. Three circulars were published by the Department during the year, on agricultural implements and machines, green bug of coffee and the distribution of Broach cotton seed.

8. Government observe from the report that demonstration work was chiefly carried on in the Shimoga, Kadur and Chitaldrug Districts. There is reason to believe that in the other districts there are large numbers of raiyats who can be induced to take to improved methods such as green manuring, single seed transplantation of paddy, the use of improved implements, etc. It would be well if the Director of Agriculture could make arrangements for more extensive demonstrations throughout the State. Government would also lay stress on the desirability of the Agricultural Department keeping in touch with and making as much use as possible of non-official and quasi-official agencies, such as Agricultural Associations, District Committees and Co-operative Societies.

It is observed that, as judged by the increase in vernacular correspondence agriculturists are taking a growing interest in the work of the Department.

9. The report was submitted to Government 38 days after it was due. The delay is attributed to pressure of work. The work of the Department as a whole was satisfactory, and the acknowledgments of Government are due to the Director and his Assistants. Government desire to congratulate Dr. Coleman on the success which has attended his efforts to combat the *Koleroga* and protect the supari crop.

(1) Government Notification No. R. 8103—Ft. 173-09-2, dated 2nd June 1910, declaring, under Section 4 of the Forest Regulation, the proposal to constitute as State Forest the Ittikalduiga Block III in the Bagepalli Taluk of the Kolar District and appointing a Forest Settlement Officer to enquire into the rights, etc.

(2) Letter No. 5658, dated 11th January 1913, from the Revenue Commissioner in Mysore, reporting on the conclusion of the settlement of the block

I have the honor to forward herewith for the orders of Government papers relating to the conclusion of the settlement of the Ittikalduiga Block III in the Bagepalli Taluk, received through the Deputy Commissioner, Kolar District, from the Forest Settlement Officer in Mysore with his letter No. 74, dated 31st August 1912. The block, as settled, comprises an area of 6,791 acres, 30 guntas or 10 61 square miles and is made up of kharab and gomal lands as noted in the margin. The gomal left is sufficient for the grazing needs of all the villages except Chinobargarapalli and Patkote In these latter, however, the large extent of kharab available may to some extent compensate for the lack of gomal lands therein.

| | A | G. |
|---|---|---|
| Kharab . | 4,679 | 30 |
| Gomal . | 2,112 | 0 |
| Total . | 6,791 | 30 |

In all, 24 claims were presented before the Forest Settlement Officer, and all, except two, were admitted by him and recorded in the "B" Register.

No appeals were preferred against the decisions of the Forest Settlement Officer and as the Deputy Commissioner has recorded no objection to the reservation, the final Notification may issue

ENCLOSURE I

*Letter No. 74, dated 28th—31st August 1912, from the Forest Settlement Officer in Mysore, to the Revenue Commissioner in Mysore, through the Deputy Commissioner, Kolar District*

I have the honor to report on the conclusion of the settlement of the Ittikalduiga Block III in the Bagepalli Taluk of the Kolar District

2 The initial notification under Section 4 of the Mysore Forest Regulation, proposing to constitute the area into a State Forest, was published on pages 280 and 281 of the English Gazette, Part I, dated the 9th June 1910, and the proclamation under Section 5 of the said Regulation was issued by me and the same appeared on pages 502, 503 and 504 of the Kannada Gazette, Part II, dated 14th July 1910 The proclamatory notices were got served on the villagers concerned through the Amildar of the Bagepalli Taluk.

3. I inspected and perambulated the locality in company with the Amildar and the Range Officer on the 16th, 17th, 19th, and 20th August 1911. In notifying the Ittikaldurga Block I for settlement the Government desired in Government Order No. R. 3633-4—Ft. 34-07-6, dated 11th December 1907, that the Forest Settlement Officer should make somewhat liberal provision for the raiyats concerned so as to provide for their legitimate requirements and allow for the natural progressiveness of the tract. As the block in question is only an extension of Ittikaldurga Block I, its settlement has been made in accordance with the directions of Government referred to in the above order.

4 The following seventeen claims were preferred to me during the enquiry .—

(i) Two claims to right of free grazing.

(ii) Four claims to right of way

(iii) Eleven claims to rights not falling under any of the above.

Both the claims in (i) were rejected. All the claims in (ii) and (iii) were admitted and recorded in the 'B' Register.

5 The Deputy Commissioner has intimated in his docket No. 18, dated 6th August 1912, the result of the appeal preferred by the District Forest Officer against my decision, and the same has been noted in the prescribed column in the 'B' Register.

6. The following records are herewith submitted :—

1. 'B' Register.
2 'C' ' do
3 Sketch map.
4. Boundary notification, and
5. Topo-tracing.

7. The date from which the reservation is to take effect may be inserted in the draft boundary notification.

| 1 | Avalareddi, patel of Nirgantipalli, on behalf of the raiyats | 11th Aug. 1911 | States that he has no objection to the inclusion of his village lands if the pond situated close to the road as well as the grounds between the high road and the Nakkapuduvanka as also the land between the proposed preliminary demarcation line and the Yedaruguminavanka measuring about 56 acres, are excluded from the reserve. | ..... | The area now left for the use of the village is quite adequate. If necessary, right of way to the pond in question may be given. | It is proposed to take from this village 292 acres of gomal lands leaving about 132 acres for the use of the village cattle. This area is quite inadequate for pasturage. Besides, the village has already contributed 104 acres of kharab land to the Ittikaldurga Block II. I would therefore exclude some lands out of the proposed extent. The preliminary demarcation line runs along side of the Bagepalli-Chelur roads. The strip of land between this road and the halla known as Nakkapaduvavanka is well studded with honge trees on which the raiyats depend for leaf manure. I would exclude it as well as the bit of land between the proposed line and the Yadaragumnavanka measuring about 62 acres The demarcation line will accordingly be deviated and made to run from a point on the southern boundary of the village along the small halla which joins the Nakkapaduvavanka and then along the right bank of the latter halla till it meets the high road. By this deviation of the demarcation line, the pond in question will also be excluded from the reserve. | | |
| 2 | Byrareddi, patel of Pathote, on behalf of the raiyats. | 16th Aug. 1911 | Represents that Hiranyachariya is included in the reserve, where the Forest Department have already raised a sandal plantation and that as already 180 acres of land have been taken from his village, he can ill afford to contribute to the proposed reserve so many as 500 acres, and prays that some lands may be excluded for the benefit of the raiyats, *i.e.*, the lands to the south of the bechirak village of Kategarpalli and to the east of Bairangudivanka. | ..... | There is no necessity to exclude any of the lands proposed to be taken from the village for the Reserve, as the lands still remaining to the village is *more than enough for* the use of the raiyats | The village has already contributed 180 acres of land to Ittikaldurga Block II. As prayed for by the raiyats, the lands to the south of the Bechirak village of Kategarpalli and to the east of Bairangudivanka to the extent of 100 acres will be excluded. As the preliminary demarcation line *touches the edge of* cultivated survey Nos. 100 and 101 of the adjoining village of Gujjepalli, the exclusion of this bit of land can be effected only by the shifting of the boundary line referred to above.<br><br>C. | 3 | Chowdareddi, patel of Gujjepalli, on behalf of the villagers | 16th Aug. 1911 | States that the preliminary demarcation line touches the edge of cultivated lands bearing survey Nos. 27, 28, 38 and 42, and that it may be shifted farther away. As the Kondakadirammanakere in the village of Buragamadagu to which his village cattle go is included in the reserve the same may be treated as an enclosure with a right of way thereto from survey No. 43 of Gujjepalli along the Addamoralvanka and Kondakadirammacheruvuvanka. | | A right of way may be given to the hill and the donè situated on it. | *Claims 3 and 4.*<br>389 acres of gomal land out of 521 acres assigned to the village has been proposed to be included within the forest. This is a populous village with a stock of 662 head of bullocks and cows. There are also 2 hamlets attached to it. The area of gomal land remaining for the use of the village is therefore quite insufficient I therefore decide that the portion of survey No. 39 (gomal) proposed to be included within the reserve be entirely excluded for the use of the raiyats. As the preliminary demarcation line runs at the edge of the field bearing survey No. 42, it will be shifted to a distance of 5 chains all round it, and then made to run along the southern and eastern boundaries of survey No 39. It also runs at the edge of survey Nos. 28 and 27 which are, owing to their situation from the village, left to be fallow for several years. Hence there is no necessity to leave a margin alongside those fields. Right of way for cattle to Kondakadirammanakere in the Buragamadagu village will be admitted *via* survey No. 43 of Gujjepalli along the Addamaravalavanka and Kondakadirammma Cheruvanka. As the Rajanalkonda hill will be included within the limits of gomal land left for the villagers, there is no necessity to record a finding on the claim advanced by the raiyats in respect of it as well as the donè or pond situated on it. I also admit the claim of the raiyats to take their cattle for water to tank (Survey No. 105) in the adjoining village of Paipalya along the path shown in the village map.<br>C. | 4 | Chowdareddi, patel of Gujjepalli. | Do .. | States that to the south of survey No. 38 stands the hill known as Rajanalkonda on which there is the Yedugarakkammagavi to which the villagers go frequently and make offerings and that there is a donè also on the Rajanalkonda to which the village cattle go for water and prays that the entire hill may be excluded from the reserve in addition to survey No. 39. Prays also that as the cattle of Gujjepalli are taken to the tank in survey No. 105 in the adjoining village of Paipalya along the path-way shown in the village map, the right of way in question may be recognized. | | | | | |

| 5 | Narasareddi, patel of Paipalya, on behalf of the raiyats. | 16th Aug. 1911 | States that Surapalli village, dakle of Mittemari, adjoining survey Nos. 74, 75, etc., has now become a chink village and that there is every likelihood of these survey numbers being taken up as the tank in survey No. 73 can be easily repaired. Begs therefore that these survey numbers may be excluded as also Kamasal Venkatappakunta and Govakunta. | There is no likelihood of this bechirak village lands being taken up for cultivation. Right of way may be given to Kamsala Venkappa kunte. | The proposed line within the limits of the village is confirmed. As these is every likelihood of survey Nos. 71, 76, 72, 74 and 75 being taken up by the raiyats for cultivation I direct that they may be treated as enclosures in addition to the tank bearing survey No 73, as also Kamasala Venkatappakunta and Govakunta in survey No 76. Access to the two kuntas will be along the foot path leading from Survey No 4.<br>C. VENKATA RAO,<br>Forest Settlement Officer.<br>22nd August 1911. |

| 7 | Venkatagowda, patel of Chinnobasgaripalli on behalf of the raiyats. | Do ... | Represents that if the preliminary demarcation line is confirmed the raiyats will be put to much difficulty for want of pasture lands as the lands now remaining are inadequate for the purpose, and that Bunnukunta may be excluded for the benefit of the village cattle. | The lands remaining to the villagers are more than enough for the pasturage of 151 head of cattle. Right of way to the kunta in question may be admitted. | In the Survey Settlement no gomal land has been assigned to this village, though more than two-third of the village extent which is hilly has been treated as kharab. The reason for it, when the adjoining villages have been assigned gomal lands, is not known. In my inspection I found not a single tree standing in the southernmost corner of the village to the south of the halla leading to the village tank. No useful purpose will be gained by including this portion within the reserve. Owing to its proximity to the village tank, this may very well serve the purpose of providing pasture for the village cattle I therefore direct that it be excluded. Boonnunkunte with a margin of 3 chains in 3 directions will be treated as an enclosure as it is said to be perennial Access to it will be along the Sirakukkalavalla.<br>C. | 14 | Adireddi, patel of Buraguntapalli, on behalf of the rayats. | Do | Represents that the preliminary demarcation line cuts off a very large area of gomal lands and that it includes within the reserve, Kondakadirammanakere which at present irrigates some lands of his village, that the tank is maintained by the rayats and is resorted to by the rayats as well as the cattle of the outlying villages of Achepalli, Kottoor, Gollapalli, etc., and that this fact was represented to the Deputy Commissioner when he directed him to make the representation to the Forest Settlement Officer at the time of the settlement and therefore requests that the said tank and some lands around it may be excluded | ..... | Kondakadirammanakere may be treated as an enclosure | A very large extent of land, viz., 782 acres of kharab and 605 acres of gomal has been proposed to be included in within the reserve. Besides a very good tank known as Kondakadirammanakere with its catchment area has been proposed to be included. This feeds the main tank of the village. The villagers have been maintaining it at their expense. It also commands the irrigation of survey Nos. 94 and 96 in addition to its being the only source of supply of water to the cattle of the outlying villages, viz., Kottoor, Gollapalli and Gujjepalli. Being situated in a valley there can be no doubt of its being a permanent source of water-supply. In consideration of these facts I would exclude the tank altogether and a portion of the catchment area studded with hedge trees which supply leaf manure for the sugar-cane gardens of the rayats. Besides, the preliminary demarcation line passes through the middle of the gomal survey No. 92. I accordingly direct that it be shifted at the north-east corner of the said survey No. 92 and be made to run southwards in a straight line along the eastern boundary of survey No. 92 for 52 chains, then eastwards almost at right angles for 19 chains then south-east for 27 chains, then south-west as far as the south-west corner of survey No. 91, then | "From the boundary bandhs of Achepalli and Buraguntadoga at the north-east corner of survey No. 92 the line will run along the original proposed line for a distance of 32 chains. It will then run east at right angles to the above line for a distance of about 22 chains and join the line proposed by the Forest Settlement Officer. In this demarcation the tank and the lands below will be allowed to the ryats.<br>P. F. HOWRING,<br>Offg. Dy. Comr.,<br>Kolar District |

READ—

(1) Government Notification No. R. 964—Ft. 20-08-2, dated 13th August 1908, declaring, under Section 4 of the Forest Regulation, the proposal to constitute, as State Forest, certain lands in the taluks of Sagar, Nagar and Shimoga of the Shimoga District, under the name of Gilalgundi Block, and appointing a Forest Settlement Officer to enquire into the rights, etc.

(2) Letter No. 5635, dated 10th January 1913, from the Revenue Commissioner in Mysore, reporting on the conclusion of the settlement of the block.

I have the honor to forward herewith for the orders of Government papers relating to the conclusion of the settlement of the Gilalgundi Forest Block in the Shimoga District, received from the Deputy Commissioner, Shimoga District, with his letter No. 249, dated 24th September 1912, copy of which is enclosed for reference.

2. The block as settled, extends over an area of 2,783 acres, 29 guntas or 4·35 square miles and consists of kharab and gomal lands, as noted in the margin, belonging to six villages. From the Deputy Commissioner's remarks, as well as from the map, it is seen that the demarcation line touches assessed lands under cultivation in the villages of Tuppur and Alvalli The line has therefore to be shifted so as to leave the prescribed margin of five chains from the edge of cultivation. The Deputy Commissioner suggests that the narrow projection to the north-west of the block which is divided from it by the Ananthapur-Shimoga road, as also gomal survey No. 10 of the Tuppur village, should be excluded from the reserve as that would render the block a compact one.

| | | A. | G. |
|---|---|---|---|
| Kharab | ... | 674 | 30 |
| Gomal | ... | 2,108 | 39 |
| Total | ... | 2,783 | 29 |

3. Adequate provision has been made in all the villages for the exercise of grazing and other rights of the malnad raiyats. Further free grazing in the reserve has been conceded to the Lakkavalli and Gilalgundi villages. The Deputy Commissioner, however, observes that the specification of the number of cattle entitled to graze is unnecessary, as the concession is intended for all the cattle in the two villages including any prospective additions thereto. He also states that the quantities of fuel allowed to each family in the two villages mentioned above are inadequate for the necessities of a malnad household and therefore considers it necessary that a more liberal grant should be made.

4. Nine claims were advanced before the Forest Settlement Officer and all of them except three were admitted. No appeals were preferred to the Deputy Commissioner against the decisions of the Forest Settlement Officer and the final notification may issue having due regard to the remarks of the Deputy Commissioner referred to above.

ENCLOSURE 1.

*Letter No. 249, dated 25th September 1912, from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore.*

I have the honor to forward herewith the marginally noted papers relating to the settlement of the proposed Gilalgundi State Forest with the following observations.

1. Forest Settlement Officer's letter No. 145, dated 31st October 1911.
2. Draft Notification
3. "B" Register.
4. "C" Register.
5. Map.
6. Sketch.

2. The proposed block comprises portions of Shimoga, Sagar and Nagar Taluks and is extremely irregular in shape. The Settlement Officer has consequently excluded portions of Kerehitlu, Gilalgundi and Thangalvadi villages out of the block to obviate the curves in the western boundary of the block.

3. The Settlement Officer states, in his letter No. 303, dated 24th March 1912, that no claims were preferred within the block by the raiyats of the Tuppur village. Gomal survey No. 10 of Tippur village lying to the south of Shimoga-Sagar high road and on the confines of assessed survey Nos. 3, 4. 6. 8, 9, 11, 64 and 65 of the village, has been included within the block without the prescribed margin from the cultivated fields. The map shows that on the other side of the road there are a number of cultivated fields in Tuppur village. A range of hills at the southern boundary of survey No. 10 of Tuppur forms the natural boundary between Tuppur and Gilalgundi villages. I am, therefore, of opinion that it is desirable to totally exclude survey No. 10 of Tuppur village and shift the demarcation line to its southern boundary which runs in a straight line.

*Proceedings of the Government of His Highness the Maharaja of Mysore,*

4. The demarcation line to the south of the block in Alvalli village runs along the confines of assessed lands survey Nos. A. 115, 116, 106, 105, 103, 91, 92, 93, 96 and 97 and is very irregular in alignment. It is therefore necessary to shift the demarcation line to a distance of five chains from survey No. 106 which is the northernmost survey number adjacent to the block in the village and run it straight east to west in survey No. 102 of the village.

5. The portion of the block to the north-west of the Shimoga-Sagar road, comprising portions of gomal survey No. 66 of Gilalgundi village, and of gomal survey No. 26 and kharab survey No. 52 of Thangalvadi village, looks like a narrow projection of the main block but completely separated from it by the high road. The remarks of the Settlement Officer against claim No. 4 in the 'B' register clearly shows that by far the most valuable portion of the gomal land in Gilalgundi village has been included within the proposed block. I am, therefore, of opinion that this portion should be entirely excluded from the reserve which should be confined to kharab survey 70 (part) of Gilalgundi village, gomal survey No. 43 (part) of Kerehitlu village, gomal survey No. 23 (part) of Lakkavalli village, and survey No. 102 (part) of Alavalli village, which would form a compact block.

6. The number of cattle of Lakkavalli and Gilalgundi villages entitled to free-grazing within the limits of the proposed reserve has been specified by the Settlement Officer. This appears to be unnecessary as the concession is intended for all the cattle of the two villages, collectively, including prospective additions to the existing live-stock.

7. The quantities of fuel allowed for each household of Lakkavalli and Gilalgundi villages within the block, *viz.*, 20 cart-loads for the former, and 8 to 20 for the latter, are inadequate for the needs of a malnad household. It is necessary that a more liberal grant at 30 cart-loads for each household, should be granted for each household in these two villages.

ENCLOSURE 2.

*Letter No. 145, dated 31st October 1911 from C. Venkata Rao, Esq., B. A., Forest Settlement Officer in Mysore, to the Revenue Commissioner in Mysore, through the Deputy Commissioner, Shimoga District, Bangalore, dated 31st October 1911.*

I have the honor to report on the conclusion of the settlement of the Gilalgundi Block in the Sagar, Nagar, and Shimoga Taluks of the Shimoga District.

2. The initial notification under Section 4 of the Forest Regulation proposing to constitute the area as State Forest appeared on pages 512 and 513 of the English issue of the *Mysore Gazette*, Part I, dated the 20th August 1908, and the proclamation under Section 5 of the said Regulation was issued by my predecessor in office, Mr. M. Shama Rao, M.A., and the same was published on pages 625 and 626 of the Kannada issue of the *Mysore Gazette*, Part II, dated the 15th October 1908.

3. The proclamatory notices were got served on the villagers concerned through the Amildars of the Sagar, Nagar and Shimoga Taluks.

4. I perambulated and inspected the tract, in company with the Forest Sub-Division Officer Mr. D. Raja Rao and the Amildar of the Sagar Taluk, Mr. B. Krishna Rao, on the 2nd and 3rd April 1911.

The configuration of the block is very irregular, especially, in its western boundary line lying within the limits of (1) Gilalgundi, (2) Kerehitlu and (3) Lakkavalli villages. The reason for it appears to me that the Forest Department, in proposing entire survey numbers for being included within the reserve, thought little of the shape it assumed after the various survey numbers of the different villages had been joined together. It was, therefore, found necessary to obviate as many curves as possible in the western boundary of the reserve, which in most places touched the edge of cultivated lands. I accordingly ordered that the southern boundary line be diverted at a point 43 chains east from the north-west corner of survey No. 20 of the Madapur village and made to run north in a straight line so as to cut the northern boundary line of the village of Lakkavalli at a point 18 chains east from the northernmost corner of survey No. 22 of the said village, then straight north-east for a distance of 65 chains up to a point where it cuts the northern boundary line of the Kerehitlu village at a point 30 chains east from the north-east corner of survey No. 54 of the same village; then north-west in a straight line for a distance of 115 chains until it meets the eastern corner of survey No. 65 (Gilalgundi tank), then in the same direction for a distance of about 10 chains along the east side of the said tank to a point in the southern boundary line of the Tangalvadi village, 12 chains east from the south-east corner of survey No. 28 of the same village, and then in the same direction in a straight line for about 65 chains till it meets the south-east corner of survey No. 25 of the said

village. By this arrangement an extent of about 135 acres of land from the Lakkavalli village, 300 acres from the Kerehithlu village, 210 acres from the Gilalgundi village and 83 acres from the Tangalvadi village, were excluded from the reserve.

5. The following nine claims were preferred to me during my enquiry :—

(*i*) Two claims to right of way and

(*ii*) Seven claims for miscellaneous rights.

All the claims in (*i*) were admitted and out of the seven claims in (*ii*), four were admitted and three rejected.

6. The Deputy Commissioner has intimated in his docket No. 413, dated the 18th July 1911, that no appeals have been preferred to him against my decision relating to the settlement of the block in question.

7 The following records are herewith submitted :—

1. 'B' Register.
2. 'C' Register.
3. Sketch map.
4. Boundary notification, and
5. Topo-tracing.

8. The date from which the reservation is to take effect may be inserted in the draft boundary notification.

| 1 | Chennaveerappa, patel of Lakkavalli, on behalf of raiyats. | 1st April 1911 | States that he has no objection for the formation of a State Forest in his neighbourhood provided the following concessions are granted.—<br>(1) Right of free grazing<br>(2) Right to remove 30 cart-loads of fuel from the reserve, per annum per house. | ..... | The total extent of gomal left to the villagers is 690 acres 15 guntas, of which 411 acres, 16 guntas are included in the reserve, leaving 249 acres to the villagers which is more than enough for 133 head of cattle. Out of 441 acres proposed, about 135 acres have been excluded by the Forest Settlement Officer, at the time of settlement, thus in all leaving 384 acres for the use of the raiyats. Hence, the forest should be left unburdoned with any rights or privileges. | Arithmetically the area left for the use of Lakkavalli is more than enough for 133 head of cattle But considering the fact that only 135 acres of gomal has been excluded from the big survey No. 23 proposed to be included within the reserve and that the remaining gomal survey numbers are small and scattered over the village, I am of opinion that the raiyats of this village are entitled to some consideration. Moreover in my inspection it was found that the area taken for the forest was the best grazing ground of the village. I therefore decide that free grazing in respect of 133 head of cattle be conceded to this village during the prescribed period of the year as also the privilege to remove from the reserve, from unreserved and unclassified trees, 20 cart-loads of fuel per annum for the use of each house.<br>C. VENKATA RAO,<br>Forest Settlement Officer.<br>3rd April 1911. | | |
| 3 | Santaveerappa, patel-gumasta of Kerehitlu. | 2nd April 1911 | Begs to state that the villagers have no jungle left except survey No. 43 from which they have been bringing fuel required for domestic use and bamboos for fencing and other purposes and that they have been grazing their cattle in the said survey number and that it may therefore be entirely excluded from the reserve. | ..... | There are only 136 cattle with a small population of 82 persons. Out of 618 acres proposed, nearly half the extent has been excluded as shown in the sketch, which is quite sufficient to meet the requirements of the village. Should the above alteration be confirmed no concessions need be granted. | As regards Kerehitlu village no concessions can be granted as the area left for the use of the villagers is more than sufficient for them.<br>C. VENKATA. RAO,<br>Forest Settlement Officer.<br>3rd April 1911. | | |

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| 4 | *Konjigappa, patel of Gilalgundi, on behalf of raiyats.* | 2nd April 1911 | Requests that as survey Nos. 66 and 70 are the only lands on which his village cattle depend for pasture and that as the raiyats can obtain thorns, bamboos, etc, only from the said survey numbers, the right of free grazing and the right to remove dead wood at the rate of 8 to 25 cart-loads, for each house, in addition to 10 cart-loads for making jaggory from sugar cane standing on one acre of land may be conceded. | ..... | It is clear from the particulars given in the statement that an area of 204 acres of gomal has been available for the raiyats, cattle. To this is added an extent of about 150 acres at the time of settlement by the Forest Settlement Officer by shifting the preliminary line into the interior of the reserve. Thus, in all 354 acres of gomal have been left for 323 head of cattle of the village. The area set apart as above, consist of good growth of trees and bamboos as well, for domestic and agricultural purposes. Hence the concessions, prayed for cannot be justly admitted | Numerically the area left for Gilalgundi village appears to be quite adequate for the requirements of the villagers. But it must not be forgotten that the extent of land of this village proposed to be included is the best in the neighbourhood of Gilalgundi for pasture for the cattle of the villagers and for obtaining fuel for their use It is the biggest out of the villages affected by the reservation of the block in question, the area of occupied lands being 360 acres, 12 guntas, which is mostly cultivated with paddy. Besides, the only two remaining big gomal lands are situated far away from the dwelling houses of the raiyats. It therefore behoves us to make adequate provision for future expansion of this prosperous village I accordingly concede to them the right of free grazing in the reserve for 323 head of horned cattle during the prescribed period of the year, as also the right to remove from it from 8 to 20 cart-loads of fuel for the use of each house per annum from the unreserved and unclassified trees.<br><br>C VENKATA RAO,<br>Forest Settlement Officer.<br><br>2nd April 1911. | .. |
| 5 | Do .. | Do ... | Prays that green bamboos for fencing purposes at 100 for every house per annum and wood for agricultural implements may be granted in the reserve. | ..... | *Vide* claim No. 4. | This prayer I reject as the villagers can obtain thorns and agricultural implements from the lands excluded out of the extent proposed for inclusion within the reserve<br><br>C. | 7 | Konjigappa, patel of Tangalvadi, on behalf of villagers. | 2nd April 1911 | As the raiyats of Hosakoppa cultivate a very large extent of his village lands, prays that all the concessions asked for in the case of Gilalgundi village may be granted to them also. | ..... | This village is about to be deserted. Out of two houses shown in the statement, one had already been vacated as was seen at the time of perambulation. About 83 acres out of survey No. 26 have been excluded from the reserve as marked in the tracing by the Forest Settlement Officerand this area is more than sufficient for all the requirements of this most insignificant village. In addition to this, about ½ of survey No. 52 measuring about 100 acres has also been left to them. Thus in all 183 acres from kharab and gomal have been spared for them. Hence there is no reason whatever to admit of any more rights in the forest. In short I am of opinion that sufficient area having been set apart for the use of surrounding villages the forest should be left unburdened with rights and privileges to enable the Forest Department to conserve and control the same effectually on scientific principles. | There are only two houses in the Tangalvadi village. As the line runs close to a large patch of wet cultivation, it has to be shifted to a distance to suit the boundary line ordered to be altered in many places. On account of the crookedness of the block, an extent of 83 acres out of the village will be excluded from the reserve. The area thus left is quite ample for the raiyats of this and the adjoining village of Hosakoppa who cultivate the lands of this village.<br><br>C. *REMARKS.*

A. The undermentioned rights of way are admitted within the block:—

(1) Foot-path from Gilalgundi to Kunihosur, 6 feet wide and about 18 chains long, open for men and cattle only, throughout the year. It enters the forest in the western boundary at the easternmost corner of survey No. 65 of Gilalgundi (tank) about 10 chains south-east from the north-east corner of the said survey No. 65 (tank), runs north-east through survey No. 66 of Gilalgundi and quits the forest in the northern boundary at a point about 11 chains south-east from the tri-junction bandhs of Tangalvadi, Gilalgundi and Kunihosur villages.

(2) Foot-path from Alvalli to Gilalgundi, 6 feet wide and about 190 chains long, open for men and cattle only, throughout the year. It enters the forest in the southern boundary at the south-east corner of survey No. 106 of Alvalli, goes north through survey No. 102 of Alvalli, north-east through survey No. 43 of Kerehithlu and north-west through survey No. 70 of Gilalgundi and quits the forest in the northern boundary at a point about 10 chains south-west from the tri-junction bandhs of Kunihosur, Gilalgundi and Tuppur.

(3) The public right of way to the high-road leading from Ananthapur to Shimoga passing through the Gilalgundi village between survey Nos. 66 and 70 is admitted. It enters the forest in the western boundary at the 195th mile, 7th furlong, 9th chain, and quits the forest in the northern boundary at the 195th mile, 4th furlong, 8th chain.

B. The following concessions are admitted within the block:—

The raiyats of Lakkavallii are entitled to graze their cattle (133) free in the reserve during the prescribed period of the year and to remove from it 20 cart-loads of fuel from the unreserved and unclassified trees for the use of each house per annum.

(2) The raiyats of Gilalgundi are entitled to graze their cattle, 323, free, in the reserve and to remove from it 8 to 20 cart-loads of fuel from the unreserved and unclassified trees for the use of each house, per annum.

(3) The temple known as Bage Devaru in survey No. 26 of Tangalvadi is treated as an enclosure with a camping ground of 2 chains all round. Access to it will be by means of a foot-path (6 feet wide and about 15 chains long) leading from survey No. 27 of the Tangalvadi village. It enters the forest in the western boundary at a point about 20 chains north-west from the north-east corner of survey No. 65 (Gilalgundi tank) runs north-east through survey No. 26 to temple (Bage Devaru).

Letter Camp No. 5, dated the 15th October 1913, from the Excise Commissioner in Mysore, forwarding a Report on the Administration of the Excise Department for 1912-13.

---

No. FL. 3351-60—S. R. 81-13-3, DATED BANGALORE, 30TH JANUARY 1914.

ORDER THEREON.—The year was not marked by any important administrative changes though certain minor measures were carried out. The chief among these were the reduction of the minimum strength of foreign liquor sold in shops from 15° U. P. to 25° U. P. and the continuance of the system of selling toddy shops in certain areas on a three year lease. The training school was closed at the end of the year as all the departmental subordinate officers had undergone a course of training. A detective establishment for training the subordinate executive staff in the work of detection was sanctioned tentatively for one year.

2. *Financial results.*—The total excise revenue realised during the year, including the arrears of previous years, was Rs. 50,66,297 or an increase of Rs. 5,20,609, over the realisation of the year 1911-12. Deducting assignments, towards local cess, refunds to privileged inamdars, and certain other miscellaneous items, the net excise revenue realised during the year amounted to Rs. 47,77,180 against Rs. 41,20,936 in the previous year. The total current demand for the year under report was Rs. 50,45,200 against Rs. 45,44,080 in the previous year. Of this a sum of Rs. 50,12,945 was collected, the percentage of collection being 99·4 against 99·7 in the previous year.

3. The increase in realisations was spread over all the principal items of excise revenue, except beer, toddy and arrack having contributed the largest share of such increase. The consumption of arrack rose during the year by 41,219 gallons owing to various causes, such as, the general rise in wages, the reduction of the strength of the liquor, and to some extent to the prevention of consumption of liquor obtained by illicit means. The revenue from toddy shows a considerable increase over the previous year's figures under both shop rent and tree-tax, the increase being attributed to keen competition at the sales and the prospect of a favourable season. The total number of trees tapped for the toddy shops in the State, inclusive of the trees tapped in the Madras Presidency was 4,63,291 against 4,37,629 in 1911-12. The increase in the number of private trees tapped tends to show that holders of lands are finding it profitable to conserve date trees, instead of removing them to extend cultivation on their fields.

4. The excise revenue for the year reached the high figure of about 50 lakhs, representing an increase of about 42 per cent over the realisation of 1901-02. The incidence of taxation per head of the population rose from Re. 0-10-5 in 1901-02 to Re. 0-14-4 in 1912-13, and in respect of arrack there was a corresponding rise in the consumption compared to population, while there was a fall in respect of toddy, ganja and opium. The increase in consumption of arrack has occurred in spite of the reduction of shops, but its effect is somewhat counteracted by the reduction in the strength of the liquor.

5. *Inamdars' claims to toddy revenue.*—The claims to the toddy revenue of 17 inam villages were settled during the year, 16 of them being disallowed. Refunds to the extent of Rs. 53,671 were sanctioned in favour of inamdars whose claims have been finally disposed of.

6. *Ganja cultivation.*—Government note that there has been much improvement in the quality of ganja locally grown and hope that the experience already gained in the matter and the use of better seed decided upon by the Excise Commissioner will ensure a further improvement in its quality.

7. *Prosecutions.*—The number of cases reported during the year rose from 2,053 in 1911-12 to 2,440 in 1912-13, the increase occurring under almost all the heads. Three hundred and seventy-eight cases involving 499 persons were disposed of by Magistrates. The percentage of convictions obtained was 85·8 per cent as against 83·6 of the last year.

*Financial (Separate Revenue), dated 30th January 1914.*

8. The administration of the Department was attended with satisfactory results in many ways, and the acknowledgments of Government are due to Mr. M. Kantaraj Urs, who was in charge of the Department as Excise Commissioner in addition to his duties as a Second Member of Council.

READ—

Letter No. 526, dated 25th October 1913, from the Inspector of Agricultural Banks.

I have the honor to submit my Annual Report on the working of the Agricultural Banks in the State for the year ending 30th June 1913.

2. I held the office of Inspector of Agricultural Banks throughout the year.

3. As usual, the data for drawing up this report were obtained from the Agents of the working Banks. The first four statements furnish statistics of the working Banks only and the fifth statement contains details of the loans sanctioned to and the amounts recovered till the end of the year from the several Agricultural Banks, both working and wound-up, and, as before, this statement was compiled from the monthly returns of the District Treasuries shewing the recoveries made from the several banks.

4. *Working Banks.*—The year under review opened with six working Agricultural Banks and during the year two of them, *viz.*, Kyatanahalli in the Seringapatam Taluk and Siralkoppa in the Shikarpur Taluk, were found to have continued in arrears of Government loan for years and the Government therefore ordered their being wound-up. Consequently the number of working Banks was reduced to four at the end of the year of which three were situated in the District of Mysore and one in Kolar.

5. *Villages sought to be benefited.*—Consequent on the reduction in the number of the working Banks, the number of villages to which the operations of the Banks extended was reduced from 88 to 77.

6. *Registered limit of funds.*—The total limit of funds of the working Banks was reduced from Rs. 2,29,385 to Rs. 1,96,000. The decrease is due to the reduction in the number of the working Banks. This figure was only a *nominal* one as most of the Banks had no vitality.

7. *Funds how obtained.*—The chief source of the working capital of the Banks was, as in the past, the balance of Government loan outstanding against them amounting to Rs. 20,946. The three Banks, *viz*,, Palhalli, Hongenahalli and Chamrajnagar were able to supplement the balance of the Government loan by local deposits to the extent of Rs. 12,588-4-9.

8 *Number of members.*—The working Banks had a total membership of 138 at the beginning of the year. There was one case of admission in the Hongenahalli Bank and three of cessation of membership in the same Bank. The net membership was, therefore, 136 at the end of the year. As usual, the Brahmins and Vokkaligars formed the bulk of the membership, numbering 71 and 30 respectively.

9. *Receipts and disbursements.*—The volume of business done during the year was less than during the previous year. The total receipts and disbursements amounted to Rs 28,267-13-5 and Rs. 27,630-1-2 respectively. As in the year previous, the Bank at Palhalli had the largest turn-over, the receipts and expenditure amounting to Rs. 33,986-0-4 and Rs. 13,398-15-1. The closing balance of all the working Banks was Rs. 637-12-3.

10. *Loans and members.*—A sum of Rs. 9,416-7-2 was issued as loans to members during the year as against Rs. 8,478-2-1 in the previous year. The Banks at *Nanjangud* and *Chamrajnagar* transacted no business as in the last year.

11. *Income of the Banks.*—The income of the banks was, as usual, made up of the interest and penalty recovered from the members on the loans due by them. The last year's transactions resulted in a net profit of Rs. 1,898-2-6. It was used mostly for paying off the interest due on the Government loan and the establishment and contingent charges. No portion of the interest was added to the Reserve Fund and even the existing surplus had been mixed up with the other assets of the Banks.

12. *Assets and liabilities.*—Statement No. IV indicates the financial position of the working banks as it stood on the 30th June 1913. The excess of assets over liabilities amounted to Rs. 12,785-6-3.

13. *Payment of interest on Government advances.*—The table given hereunder shews the amount of interest paid during the year by both the working and the wound-up banks.—

| | 1911-12 | 1912-13 |
|---|---|---|
| | Rs. a. p. | Rs. a. p. |
| Working Banks ... ... | 681 15 6 | 742 4 8 |
| Wound-up Banks ... ... | 5,256 12 7 | 4,722 14 3 |

*Proceedings of the Government of His Highness the Maharaja of Mysore,*

14. *Re-payment of instalments.*—The subjoined table shews the total amount outstanding against the banks both working and wound-up, the repayments made by them during the year and the balance of instalments remaining unadjusted:—

| Instalments up to the end of. | Amount due. | Repayments. | Balance |
|---|---|---|---|
| | Rs. a. p. | Rs. a. p. | Rs. a. p. |
| 1911-12 ... | 7,35,854 0 0 | 6,40,459 11 0 | 95,394 0 0 |
| 1912-13 ... | 7,43,670 10 8 | 6,63,755 13 8 | 79,914 13 0 |

The amounts of principal paid into the Treasuries by the working and wound-up banks respectively are given below:—

| | During the year. | Working Banks. | Wound-up Banks. |
|---|---|---|---|
| | | Rs. a. p. | Rs. a. p. |
| Principal ... | 1911-12 | 6,387 0 0 | 59,536 4 6 |
| | 1912-13 | 7,597 0 0 | 27,098 4 7 |

The recoveries have on the whole been satisfactory. In the Bangalore District, of the six Banks that are still indebted to the Government, those at Bidarkuppe, Attibele and Closepet shewed good recoveries and from the two Banks of Ardeshalli and Vadigenhalli situate in the Devanhalli Taluk, there was no recovery and the balances of Rs. 6,902 and Rs. 6,511 have been outstanding for the last three years. Of the Banks in the Kolar District those at Mudavatti (Kolar Taluk) and Thippenahalli (Chikballapur Taluk) deserve notice. Very small sums were recovered from them and the balances are still heavy. It is very satisfactory to note that the working bank at Hongenahalli in the Malur Taluk of the same district paid off the Government loan in full and the management of the Bank is good and there is every likelihood of its continuing the transactions with the reserve of about Rs. 3,316-6-7 accumulated so far. In the Tumkur District all the banks, except Rampura and Manchakalkuppe, have discharged the Government loans. The recoveries of Government dues have been specially stisfactory in the Mysore District. From the Kyatanahalli Bank which was ordered to be wound-up at the beginning of the year, a sum of Rs. 5,004 was credited towards principal, besides a sum of Rs. 450-6-8 which was paid towards interest. This leaves a balance of only Rs. 636 outstanding against the Bank. A sum of Rs. 3,810 was recovered from the Seringapatam Bank and the balance of Government loan was reduced to Rs. 790. The Mandya and Satnur Banks have shewn good recoveries. The balance of Rs. 2,760 due from the Bank at French Rocks still remains unadjusted and there was only a small recovery of Rs. 53-10-3 under interest. Shimoga District contains the least number of indebted Banks and their accounts with the Government could have long ago been closed, had the Amildars paid a little attention to the Banks existing in their taluks. The small sum of Rs. 2 is due from the Banks of Salur and Haronuchadi and Rs. 13-12-0 from the Bank at Churchgundi. These sums have been outstanding for over three years. The sums of Rs. 950 and Rs. 314 due by Siralkoppa and Honnali have not been adjusted, there having been no recovery from them during the year. The other districts call for no remarks.

*Inspection.*—This year too I received no report of inspection by the District Officers. I inspected the Banks at Closepet and Thippenahalli in the Chikballapur Taluk.

*General Remarks.*—Out of the 59 Banks started throughout the State since the inception of the movement, as many as 32 Banks have completely paid off the Government loan and their names have been noted in the margin. There have been excess recoveries in the case of most of them and I daresay that in the case of others also there are still uncollected debts. In statement No. V, some of the available particulars as regards the excess recoveries have been noted and the question of the utilization of the surplus amounts of these paid up Banks still remains unsolved. The reason for this is obvious and the authorities of the Banks are to a large extent responsible for this state of affairs and it is but natural that they should be lethargic after the Government loan is repaid as there is no inducement for them to close the Banks finally.

The circular mentioned in my last year's Report was issued to stir up the Banks a little in this direction and for the reasons quoted in that Report, it has had no effect. The matter can only be dealt with by suitable action by the Registrar of Joint-Stock Companies, as the Banks are registered under the Companies' Regulation.

As regards the resuscitations of the Agricultural Banks, the policy adopted last year was continued. It was reported that in the year 1911-12, 18 Co-operative Societies were formed in localities where Agricultural Banks had been in existence. During the year, five such

*Financial (Banking), dated 9th January 1914.*

Societies have been started four in the Shimoga District and one in the Bangalore District. The Societies at Chinnikatte in the Honnali Taluk and Ummadahalli in the Mandya Taluk started last year extend their operations to the villages of Joga and Satnur, respectively, where there were Agricultural Banks before. From the statistics available, it is seen that 177 members of the defunct Agricultural Banks have joined the above mentioned 25 Societies as against 78 members in the year previous. The Societies accommodated the members with loans to the extent of Rs. 17,782-9-1 for paying off the debts due to the Agricultural Bank and to a further extent of Rs. 11,598-1-6 for agricultural and other purposes. The corresponding figures for the last year were Rs. 1,760 and 9,605 respectively. At the same time, the members have subscribed for 177 shares in these societies and have paid a sum of Rs. 3,654-13-0 as against a sum of Rs. 1,402-8-0. The success of the Co-operative Societies has, it seems to me, solved the problem of the resuscitation of the Agricultural Banks once for all.

Order thereon.—Recorded.

2. The number of working institutions fell during the year from 6 to 4. Of these only 2, *viz.*, the Banks at Palhalli in the Seringapatam Taluk and Hongenhalli in the Malur Taluk are working on sound lines, the former showing as usual the largest turn-over, its receipts and expenditure during the year amounting to Rs. 13,986 and 13,399 respectively. The other two Banks, *viz.*, those at Nanjangud and Chamrajnagar, are reported to have transacted no business for the past two years.

3. The Nanjangud Bank has however fully paid up the Government advance, but the Chamrajnagar Bank is heavily in arrears of the instalments due to Government, and as no purpose is served by keeping Government money locked up in such an institution and keeping it artificially alive, the Deputy Commissioner of the Mysore District will take immediate steps to have the balance of Government loan realised at once by taking coercive measures under Regulation II of 1903, if necessary.

4. It is noted that the collection of dues especially in the Bangalore and Mysore Districts has been better than in previous years. Out of a total advance of Rs. 7,43,670 due up to date, a sum of Rs. 79, 914 still remains to be realised from these institutions. Nearly 20 institutions are yet largely in arrears and it behoves the Deputy Commissioners of the Districts concerned and the Inspector of Agricultural Banks to take vigorous measures for effecting an early recovery.

5. Thirty-two out of the fifty-nine Banks started in the State have fully paid up their Government dues and of these all except the Bank at Hongenahalli have ceased working. A few others have small balances to pay up and during the current year, it is expected that their accounts will also have been fully adjusted. Excess recoveries from individual Banks are reported in the marginally noted cases. Government invite the special attention of Deputy Commissioners in conjunction with the Inspector of Agricultural Banks to the readjustment of excess recoveries and prompt repayment of the excess amount collected from individual members. Government do not think that the existence of these dormant institutions serves any useful purpose and they consider it expedient to take steps to have them completely wound up. The attention of the Registrar of Joint Stock Companies is invited to letter No. Fl. 5341—B. 30-12-4, dated 22nd March 1913, conveying instructions for action in such cases.

Letter No. 1696—137, dated the 24th October 1913, from the Registrar of the Chief Court, forwarding the Report on the Administration of Civil Justice in Mysore during the year 1912-13.

---

No. J. 2076—CTS. 121-13-4, DATED BANGALORE, 26TH JANUARY 1914.

ORDER THEREON.—*Number and jurisdiction of courts.*—The temporary Additional Munsiff's Court at Chikballapur, established in February 1911, was, at the close of the year under report, made permanent and removed to Dodballapur with jurisdiction over the taluks of Dodballapur, Nelamangala and Goribidnur. The territorial jurisdictions of the First Munsiff's Court at Bangalore and of the Chikballapur Court were consequently readjusted in order to equalise the work of those Courts.

2. *Original work.*—The number of suits instituted fell from 24,525 in 1911-12 to 23,659 during the year under report, of which 12,867 were ordinary suits and 10,792 small causes. The number of suits disposed of amounted to 24,620 against 24,019 in the previous year. The disposal of contested suits, both ordinary and small causes, during the year exceeds the disposal in each of the preceding three years as shown below:—

| Year | Number of contested suits disposed of |
|---|---|
| 1909-10 ... ... ... | 1,225 |
| 1910-11 ... ... ... | 5,033 |
| 1911-12 ... ... ... | 5,291 |
| 1912-13 ... ... ... | 5,666 |

Though the volume of business done in this respect forms a satisfactory feature, the arrears pending before the Courts are still heavy.

3. Some improvement is also perceptible in the average duration of contested suits during the year, as compared with the previous year. In the case of both ordinary contested and small cause contested suits, the duration fell from 275·22 days to 221·17 days and from 168·76 days to 153·10 days respectively. There is room for further improvement in this direction as the average duration in small cause suits is still excessive.

4. *Appellate work in Subordinate Courts.*—The number of appeals for disposal in the District and Subordinate Judges' Courts was 957, including the number pending at the close of the previous year. Of these, 634 appeals were disposed of against 742 in the previous year. The average duration of appeals in Sub-Judges' Courts was 117·64 days against 105·64 and in the District Courts 136·14 days against 129·89 days in 1911-12.

5. *The Chief Court.*—The Chief Court disposed of 300 first appeals and 245 second appeals during the year against 261 and 223 respectively in 1911-12. Considerably more than half the number of first appeals and nearly half the number of second appeals disposed of were cases of abnormal duration, and therefore the normal duration of these cases (209 and 154 days) does not give an adequate idea of the time taken in disposal. The duration of second appeals of even normal duration rose from 89 days in the previous year to 155 days. The larger number of disposals and the transfer of some first appeals to the District Court resulted however in an appreciable reduction of the arrears of first and second appeals which have fallen from 769 appeals at the close of 1910-11 to 469 at the close of the year under report.

6. *Inspection.*—Government are gratified to note that the Judges of the Chief Court were able to undertake a systematic inspection of the Subordinate Courts during the year. All the three District Courts, all the Sub-Courts and 11 out of the 17 Munsiffs' Courts in the State were inspected by them. The inspection work done by the District Judges, except the District Judge of Shimoga, was unsatisfactory. The District Judge, Mysore Division, inspected only three Munsiffs'

*Judicial and Legislative (Courts), dated 26th January 1914.*

Courts in his division, while the District Judge, Bangalore District, inspected none at all, though it is reported that he had ample time at his disposal for attending to this important part of his work.

The administration of the Department during the year was on the whole satisfactory.

---

No. J. 2149-57—CTS. 122-13-5, DATED BANGALORE, 31ST JANUARY 1914.

ORDER THEREON.—*Crime.*—The total number of offences reported to the Magistrates and returned as true increased from 17,915 and 14,776 in 1911-12 to 19,464 and 15,889, respectively, during the current year. The offences against property reported during the year were 5,689, as against 5,676, in the previous year. The number of heinous offences also showed a slight increase over the previous year's figures, the number of murder cases increasing from 8 to 20.

2. *The result of cases.*—The number of persons brought to trial during the year was 34,808, of whom 6,576 were convicted and 25,850 were discharged or acquitted. The following statement shows the percentage of convictions to the number brought to trial under certain classes of offences:—

| | Percentage of convictions | Percentage of discharge or acquittal |
|---|---|---|
| Offences against human body ... ... .. .. .. | 6·89 | 81·11 |
| Offences against property ... .. .. . . | 27·80 | 55·85 |
| Offences under Special or Local Laws . ... ... | 51·10 | 36·95 |
| All offences together ... . .. . . | 18·8 | 68·71 |

These figures reveal a low percentage of convictions in criminal trials, though this may to a certain extent be accounted for by the circumstance that the total number includes persons whose cases have not been enquired into on their merits. In order to arrive in future at a proper understanding of the results of criminal trials, Government consider that only such cases as were disposed of on their merits should be taken into account calculating the percentage of convictions and discharges. The figures at present furnished do not enable such a differentiation to be made and Government therefore approve of the Chief Court's proposal to obtain figures separately showing the number of persons whose cases were not disposed of on their merits owing to composition of the offence or withdrawal of the complaint or the absence of the complainants.

3. *Magisterial work.*—The average duration of cases in the Courts of Magistrates was 12·48 against 11·39 in the year previous. It is noticed that the original work done by the District Magistrates is still very poor, the District Magistrate of Bangalore not having tried a single case himself during the year. This cannot be regarded as satisfactory and Government hope to find a substantial improvement in future in this direction.

4. *Appellate work.*—The appellate Courts, except the Chief Court, dealt with appeals of 1,374 persons during the year. The appeals of 1,177 persons were disposed of as against 1,078 during the previous year. The average duration of appeals in Magistrates' Courts was 26·09 days against 19·08 in the previous year; and in the Sessions Courts it was 24·66 against 26·39 in 1911-12. The Chief Court had 128 appeals for disposal during the year involving 232 persons. The appeals of 172 persons were disposed of the average duration of appeals being 41·73 days against 28 days in 1911-12 and 51·66 days in 1910-11.

5. *Inspections.*—It is satisfactory to note that the Judges of the Chief Court were able to inspect a large number of subordinate Courts during the year including the Courts of five District Magistrates. Government notice with regret that the Sessions Judges of Mysore and Bangalore did no inspection work during the last two years.

No. J. 2007—PRIS. 13-13-3, DATED BANGALORE, 15TH JANUARY 1914.

ORDER THEREON.—In order to fix the responsibility on the guards concerned in cases of escape of prisoners from the lock-ups of the State, Government consider it necessary to provide that the number of prisoners in every lock-up should be counted at each change of the guard.

2. Government are accordingly pleased to sanction the adoption of the marginally noted register for the purpose as recommended by the Inspector-General of Prisons, in all the lock-ups of the State and to rule that at each change of the guard the number of prisoners in the lock-up should be counted and the result noted in the register.

* Printed below.

3. In order to ensure the proper maintenance of the register, the officer in charge of the lock-up should inspect the register whenever he visits the lock-up and initial the last entry therein.

Government Proceedings No J. 969-70—Police 45-11-4, dated the 16th September 1911, sanctioning the establishment of three *Jui-Jutsu* classes—one at Mysore and the other two at Bangalore.

Government Proceedings No. J. 527-36—Police 45-11-11, dated 17th August 1912, sanctioning the establishment of six additional classes at headquarters of districts other than Bangalore and Mysore.

Letter No. 3534-364, dated 8th March 1913, from the Inspector-General of Police in Mysore, stating that owing to the inadequacy of the funds sanctioned for constructing the required platforms and the want of a sufficient number of trained officers for imparting instruction, it has not been possible to open the six classes sanctioned in the Government Order of the 17th August 1912 and that, in addition to the class at Mysore, three more classes—one in Bangalore, one in Tumkur and one on the Kolar Gold Fields—are sufficient and requesting sanction to an initial expenditure of Rs. 2,610 for constructing platforms and sheds in addition to the expenditure of Rs. 2,640 already sanctioned for the purpose.

Letter No. 5397-649, dated the 24th June 1913, from the same officer, submitting detailed proposals in the matter.

With reference to your docket No. J. 2945—Police 181-12-2, dated the 3rd April 1913, regarding the establishment of *Jui-Jutsu* Schools, I have the honor to state that, after mature consideration, it has been considered enough, as already submitted, to have only two schools for the present, one each at Tumkur and Kolar Gold Fields in addition to those already existing at Bangalore and Mysore. The period of training will be, as hitherto, six months for each batch of students, consisting of 2 Inspectors, 2 Jamedars, 2 Daffedars and 6 Constables so that 12 officers and men will undergo the training in each school during a term. At this rate 96 officers and men will be trained every year in all the four schools. It will not be possible to have more than 12 pupils in a school at a time and give them satisfactory training within the period of six months. It will thus be some years before the whole Force can be trained in the art, and with the appointment of new men to the service every year, there will always be a sufficient number available for training, necessitating the eventual establishment of such classes permanently, at least in the Headquarter Training School at Bangalore and at Mysore. The necessity for such a training need not be detailed here, inasmuch as *Jui-Jutsu* is considered a *sine qua non* for all Police services, and classes for instruction in the same have now been or are being opened in the modern Police Training Schools throughout British India.

2. With regard to the employment of instructors in the schools, it is unnecessary to have highly paid Inspectors, as they would be liable to be changed frequently. I would confine the instructors' places to Officers of the class of Inspectors of the Rs. 10 grade, who can be expected to continue in the Schools for some years. At the rate of one Inspector for each school, we would require 4 Inspectors on Rs. 40, or at a cost of Rs. 160 per mensem or Rs. 1,920 per annum.

| 12 Inspectors at Rs. 7 . | 84 |

| 8 Daffedars at Rs. 3 ... | 24 |
| 24 Constables at Rs 2 .. | 48 |
| Total . | 196 |

3. During the period of training, the officers and men on deputation have to be given the special allowances sanctioned in Government Proceedings No. J. 2540-1—Police 87-10-4, dated the 6th March 1911, which will amount to Rs. 196 per mensem, or Rs. 2,352 per annum.

4. Uniforms will have to be supplied to the Instructors and the pupils, at a cost of Rs. 4-12-0 each, while there will be fresh uniforms supplied to each batch every six months, the Instructors will have the same once a year. The outlay on this head amounts to Rs 475 per annum

|---|---|
| 4 Inspectors at Rs. 4 12 0 | 19 |
| 96 Students at Rs. 4-12-0 .. | 456 |

5. Another sum of Rs 260 has to be added for meeting the expenditure in all the four schools on hay on platforms, required to be renewed every four months, as also a sum of Rs. 240, being the contingent grant at Rs. 5 per month for a school, to meet the charges of repairs of tarpaulins, etc.

6. The recurring expenditure on all the four schools will thus amount to Rs. 5,247 as shown in the margin.

7. The initial expenditure on the erection of sheds and platforms amount to Rs 5,250 as already stated in para 7 of my letter No. 3534-364, dated the 8th March 1913, to Government

8. Very early sanction of Government is solicited to the proposals, so that the schools may be established with effect from the 1st July 1913.

9. In this connection, I would also solicit the sanction of Government to make acting arrangements or to entertain substitutes during the periods the officers and men will be under *Jui-Jutsu* training, for the efficient and smooth discharge of their regular duties, in modification of the orders of Government conveyed in para 2 of Proceedings No. J. 527-36—Police 45-11-11, dated the 17th August 1912.

Letter No. 1990-195, dated the 5th December 1913, from the same officer, stating that the extra cost involved in his proposals cannot be met by reappropriation.

No. J. 1947-48—POLICE 181-12-11, DATED BANGALORE, 7TH JANUARY 1914.

ORDER THEREON.—The proposals contained in the Inspector-General of Police's letter of the 23rd June, read above, are sanctioned for one year from the 1st July 1914. Only three schools should be maintained during the current year as no re-appropriation of funds is reported to be feasible.

2. The Inspector-General of Police is requested to submit a report on or before the end of April 1915 as to the desirability or otherwise of continuing the classes for the orders of Government.

---

No. 7368-416—MED. 128-13-1, DATED BANGALORE, THE 30TH JANUARY 1914.

ORDER THEREON.—The enquiry held by the Senior Surgeon discloses that Mr. Abboy Naidu, the Medical Officer in charge of the Lunatic Asylum, Bangalore, attends on families of persons for private practice of medicine.

Government consider that such private practice in the case of the Officer in charge of the Lunatic Asylum is incompatible with the proper discharge of his public duties under Rule 3, clause (*a*) of the rule, issued with the Government Order dated the 24th February 1910, read above and are therefore pleased to direct that this officer desist from such private practice so long as he remains in charge of the Lunatic Asylum.

Letter No. 1790, dated the 6th November 1913, from the Sanitary Commissioner, submitting the Report on Plague Administration in the Mysore State during the year 1912-13.

---

No. 7041-9—SAN. 47-13-4, DATED BANGALORE, 19TH JANUARY 1914.

ORDER THEREON.—Government note with satisfaction that the recorded attacks and deaths from plague fell from 18,767 and 14,041 in 1911-12 to 5,361 and 3,782, respectively, in the year under review. The highest number of attacks occurred during the month of September 1912 and the lowest during May 1913.

2. The usual preventive measures received attention. Government are glad to observe that the Plague Hospitals continued to increase in popularity during the year.

3. The total expenditure incurred in connection with plague preventive measures was Rs. 26,063 as against Rs. 31,790 in the previous year.

4. The report under review was received in the Secretariat after a delay of more than a month and one of the statistical statements was not received until some time later. Government hope that the Sanitary Commissioner will arrange for the punctual submission of the report together with all the returns on due date in future.

---

No. 7431-48—San. 58-13-2, dated Bangalore, 31st January 1914.

ORDER THEREON.—Government consider that no case has been made out for relaxing their order of the 8th March 1912, and are of opinion that the necessary expenditure on plague preventive measures should be met by reappropriation of sanctioned grants in all possible cases. Where, however, such a course is impracticable, it is open to the Sanitary Commissioner to recommend a grant-in-aid from the State Funds under para 5 of the aforesaid order.

2. As regards the second point, the Sanitary Commissioner is requested to intimate to each of the local bodies in January of every year the probable amount required during the following official year for epidemic charges within the area under its control and also to submit a consolidated statement of such estimates to Government for reference while sanctioning the budgets.

3. Government are not inclined to accept the third of the recommendations made by the Sanitary Commissioner as the measures for the suppression of cholera consitute one of the primary duties of the local bodies concerned.

*No. 5774—318, dated Bangalore, 13th November 1913, from M. Shama Rao, Esq., M.A., Inspector-General of Education in Mysore, to C. S. Balasundaram Iyer, Esq., B.A., Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture.*

I have the honor to submit for the consideration of Government a Memorandum on the opening of B. A. Honors Courses in the Central and Maharaja's Colleges together with copies of letters addressed to me by the Principals of the two Colleges, containing their views on the proposals made in my Memorandum. Mr. Tait is in favour of having Honors Courses both in Physics and Chemistry and wants no extra establishment for the purpose. A special grant of Rs. 15,000 for Physics and of Rs. 3,000 for Chemistry are however needed for extra equipment. Mr. Denham wants in the first year an Assistant Professor for History and Economics and in the second year a tutor, the two together costing between Rs. 3,600 and Rs. 6,000 per annum. He also requires a Library grant of Rs. 2,000 to purchase some more books. The total fixed expenditure for the two Colleges amounts to Rs. 20,000, which, I think, may be regarded as a modest sum as it can be spread over two years. As regards the recurring expenditure required by Mr. Denham, I beg to state that the saving in the Honors scholarships now given, Rs. 5,400 annually, will suffice to meet such expenditure. I, therefore, beg that Government may be pleased to accept my proposals and authorise me to apply to the University of Madras for opening Honors Courses in Physics and Chemistry in the Central College and in History and Economics in the Maharaja's College.

## B. A. HONORS COURSES IN THE CENTRAL AND MAHARAJA'S COLLEGES.

1. The two 1st Grade English Colleges in the Mysore State provide for the teaching of only the B. A. Pass Course and six scholarships of Rs. 25 each are awarded annually to those studying for Honors in the Colleges of Madras. There are also two scholarships of Rs. 20 each per mensem for two years for the Philosophy pass course awarded in the Madras Colleges.

2. Of the Colleges affiliated to the Madras University, only three have provided for the teaching of the Honors Courses.

(1) Presidency College, Madras, Branches I, IIA., IIB., III, IV, V, VII and VIII.

(2) Christian College, Madras, I, IIA., III, IV, V and VII.

(3) St. Joseph's College, Trichinopoly, I, IIA. and V.

While the Honors Course extends over three years, the pass course is only for two years. The pass students are required to undergo an examination both in English as well as in the optional group at the end of two years. On the other hand, the Honors students undergo a preliminary examination in English at the end of the first year and for the next two years study only the subjects of the optional group selected by them and undergo an examination in the subjects of that group at the end of the third year.

3. We may begin with Honors Courses from next year only in two subjects, Physics in the Central College and History in the Maharaja's College. Both these Colleges have been well-equipped on a large scale and I do not think that we need incur any additional cost for equipment. Some addition to the staff, however, will be necessary. In all the three Colleges where Honors Courses exist at present, Branches IIA. and V are common. For Branch IIA., there are, in the Presidency College, 2 Professors and 3 Assistant Professors, in the Christian College, 1 Professor and 2 Lecturers and in the St. Joseph's College, Trichinopoly, 1 Professor and 1 Assistant Professor. In the Central College, where at present only the Pass Course is taught, we have 1 Professor, 2 Assistant Professors and 1 Demonstrator. I think an additional Assistant Professor, possessing high proficiency, will be needed when the Honors Course is started. Then again, for Branch V, there are, in the Presidency College, 1 Professor and 2 Assistant Professors, in the Christian College 1 Professor and in the St. Joseph's College, 2 Professors and two Assistant Professors. In the Maharaja's College, we have at present 2 Professors and 1 Lecturer and with the starting of the Honors Course, an Assistant Professor may be added. The Honors Course includes all the subjects of the pass course and has some of its own, but in the Honors Examination the students are expected to show a higher standard of proficiency than in the Pass Examination. Similarly, the Honors Preliminary Examination in English is held only in a portion of the subjects prescribed for the Pass Examination and no separate class is needed for the Honors students for the teaching of English, as they can be taught in combination with the pass students.

4. From what has been said above, it can be easily seen that the cost will not be very much. Two additional Assistant Professors are absolutely needed and their annual cost may be taken at about Rs. 5,000. At present we offer six Honors scholarships of Rs. 25 annually

*Local Fund and Sanitary (Education), dated 6th January 1914.*

for three years costing annually Rs. 5,100. With the opening of the Honors Courses in Physics and in History in the Central and Maharaja's Colleges, no scholarships need be offered for these subjects and it is also likely the demand for scholarships for studying other subjects in the Madras College will diminish, if it does not disappear. A saving may therefore be expected in the scholarships, to meet to some extent the extra cost of employing two (or three) additional Assistant Professors.

*D. O. No. 141, dated 6th September 1913, from the Principal, Central College, Bangalore, to the Inspector-General of Education in Mysore.*

With reference to your D. O. No. 219, enclosing confidential note on the opening of Honors Courses, I beg to offer the following observations :—

(1) It is of the greatest importance in the Science subjects that no one should be admitted to an Honors Course until he has taken the pass degree.

(2) If this is conceded, it will not be necessary to strengthen the staff either in Physics or in Chemistry. A student who has gone through the pass course and shown sufficient aptitude for the subject he has chosen, does not require lectures. He requires supervision and guidance, but if he has the requisite capacity for an Honors Course, he should be thrown on his own resources a good deal. Mr. Metcalfe and Mr. Usher are agreed on this point.

(3) The statement in para 3 of your confidential memo, that the Central College has 1 Professor, "1 Assistant Professor" and 1 Demonstrator in Physics should be "2 Assistant Professors." Mr. Metcalfe has gone into the question of equipment and recommends that a Special Grant of Rs. 7,500 for each of the two years 1914-15 and 1915-16 should be sanctioned.

(4) I think it would be as well to apply for affiliation in Honors in Chemistry at the same time. The sum required for equipment would be less than Rs. 3,000. It would be necessary to reject all but the very best students, as tested by their performance in the two years of the pass course, for each student would use chemicals to the value of Rs. 300, the chemicals necessary for Honors work being very expensive. An Honors Class in Chemistry would not be held in any particular year, if no candidate of sufficient ability presented himself.

---

*D. O. dated 2nd September 1913, from the Principal, Maharaja's College, Mysore, to the Inspector-General of Education.*

With reference to your kind letter asking for my opinion on the proposed Honors Course in History, I think you will see from the following that the course could be introduced at a comparatively small cost—whereas the benefit would be very great.

For the first year we should require either a full Professor or an Assistant Professor—preferably a full Professor, either an Englishman with History Honors, or a First Class B.A., Indian with a Second Class M. A. A good Englishman is also desirable with a view to the Principalship. In any case, we must have a good man capable of relieving Mr. N. S. Subba Rao and myself in the B. A. Pass work. We ought not to seek relief from the small amount of work we do in the Intermediate Classes—for we are badly wanted there. The Honors men in the first year would have to do a good deal of library under direct supervision, Essay work, and also a few hours of special instruction work.

The second year's course would necessitate the appointment of a good man, a graduate, as tutor.

A special Library grant of about Rs. 2,000 would have to be given, in addition to the amount I am willing to spend of the Rs. 1,000 remaining out of the special grant. Our Political Science Section wants to be greatly strengthened—practically created. And money must be spent on the books for the special subjects and a little must be given to Political Economy.

According to my idea then, the total expenses will work out something like as follows :—

| | | | |
|---|---|---|---|
| 1st year | 1 Full Professor | Rs. 500 | 1,000 |
| or | 1 Assistant Professor | „ 200 | 300 |
| 2nd year | 1 Tutor | „ 100 | 200 |
| 3rd year | Nil | | |
| Library grant | | „ 2,000 | |

I hope you will find this a modest estimate. It is the minimum—but with it, I believe we could work the Honors Course very well. I think that all Madras scholarships should cease on the establishment of the Honors Course.

No. G. 5318-66—G. R. 23-11-18, DATED BANGALORE, 15TH JANUARY 1914.

ORDER THEREON.—Under the existing orders, the number of members to be returned to the Representative Assembly is fixed for each taluk, including the sub-taluk, if any comprised in it, but no separate representation is allowed for the sub-taluk.

The raiyats and merchants of the Alur Sub-Taluk having submitted a petition stating that at the last elections to the Assembly no one from the sub-taluk was selected and praying that separate representation may be granted to them, the opinion of the Deputy Commissioners was invited in order that general orders applicable to all the sub-taluks may issue. From the reports received it is seen that the Deputy Commissioners of Districts are unanimously of opinion that the sub-taluks may be allowed separate representations in the Assembly.

The Government consider that the request is a reasonable one and they are accordingly pleased to direct that each of the sub-taluks of Closepet, Gudibanda, Koratagere, Turuvekere, Kumsi, Yedahalli, Harihar, Alur and French Rocks be allowed to elect a member of its own to the Representative Assembly commencing from the triennial election of 1915, the number of members now assigned for the respective taluks to which these sub-taluks belong being in each case reduced by one.

Letter No. 423, dated 5th September 1913, from the Director of Industries and Commerce in Mysore, reporting on the financial position of the Weaving Factory and submitting a budget for it for the nine months from 1st October 1913 to 30th June 1914.

---

No. G. 4942-4—G. M. 67-13-149, DATED BANGALORE, 3RD JANUARY 1914.

ORDER THEREON.—The Weaving Factory maintained by the Department of Industries and Commerce was started in June 1912 with the object of improving handloom weaving in the State. It is at present located in certain rooms attached to Mr. Doddanna's School, Bangalore City, taken on a monthly rent of Rs. 200. It imparts instruction to weavers in improved methods of warping and teaches them the use of the fly-shuttle, the dobby and the jacquard attachments. Experimental work is also carried on to adopt the dobby and the jacquard to local requirements.

2. Besides teaching weavers in the Factory itself, demonstration parties are being sent out to certain places containing a large population of weavers in order to popularise the use of the fly-shuttle. Under Government Order No. G. 4231-78—G. M. 55-12-115, dated 30th January 1913 a sum of Rs. 5,000 was placed at the disposal of the Director of Industries and Commerce for the Weaving Factory and a sum of Rs. 2,500 was also made available by the Committee for Industries and Commerce.

3. During the past few months, the work of the Factory has developed as arrangements have been made to manufacture on fly-shuttle looms certain staple articles which are in large demand in the trade. This manufacture will be undertaken partly in the Factory itself and largely by distributing the work in the weaving centres where demonstration parties are at work. The separate budget for the Factory now submitted by the Director is intended to suit these altered conditions. The appended statement gives the details of receipts and expenditure from 1st October 1913 to 30th June 1914, which are estimated at Rs. 31,600 and Rs. 42,015 respectively. After deducting Rs. 2,000 which represents capital expenditure on furniture, tools and plant, the net expenditure on the institution will be Rs. 8,415.

4. In the circumstances, Government are pleased to sanction the Budget Estimates as submitted by the Director, with the direction that the net expenditure on the institution should not exceed Rs. 8,415 as now estimated. The expenditure will be met from the grant of Rs. 10,000 provided in the budget of the Department of Industries and Commerce for "Experimental Industries—charges not recoverable". The Director is requested to arrange for the experimental and educational parts of the expenditure being kept quite distinct and to see that the factory proper is worked on strictly commercial principles.

NO. G. 5594-642 - G. M. 182-13-4, DATED BANGALORE, 24TH JANUARY 1914.

ORDER THEREON.—The organization of the Department remained practically the same as in the previous year, the few alterations made during the year under review being the reduction of the Mysore Palace Division and the addition of a new temporary sub-division to the Bangalore Division. The Public Works Workshop at Bangalore which it is intended to materially improve at a cost of over a lakh of rupees, was constituted into a separate sub-division.

2. The new system of submitting original bills to the audit office introduced during the year is expected to secure more effective check over expenditure. The assumption by the Department of the duty of collecting the charges for excess water consumed, hitherto entrusted to the Bangalore and Mysore City Municipalities, introduce a desirable change as the same agency will be responsible for the collection of water rates, the maintenance of accounts and the management of the works.

3. The expenditure under all heads including "contribution" during the year under report amounted to Rs. 50,87,992 the excess of about 7¼ lakhs over the previous year's expenditure being due to the growing demands of the Cauvery Reservoir works at Kannambadi, the year's outlay on which was Rs. 15,70,553. It is seen from the statement appended to the report (Appendix III), showing the expenditure during the past five years under the principal heads of service, that the total outlay during the year under review has exceeded the average of the past five years by over 12¾ lakhs of rupees.

4. Among irrigation major works which received the attention of the Public Works Department, two call for prominent notice, *viz.*, the Marikanave Reservoir and the Cauvery Reservoir Project. On the former work which was completed about three years ago arrangements have been made to develop cultivation by the introduction of the Block-system.

5. In connection with the construction of a dam across the Cauvery at Kannambadi, an equitable scheme of land compensation has been sanctioned under which the displaced population will be able to settle down on new lands which will be provided with irrigation facilities.

6. The restoration of the Madhava Mantri Anikat which suffered a breach of serious proportions during the floods of August 1912 and the construction of a new tank across the Maralwadi stream near Mavathur in the Kankanhalli Taluk were some of the other important irrigation works on which large sums were expended during the year.

7. The year's outlay on civil buildings was Rs. 6,70,476. The more important of the buildings under construction in the preceding year, such as the Chemical Laboratory of the Central College at Bangalore and the Chamarajendra Technical Institute at Mysore were practically completed, and handed over to the departmental authorities concerned. Of the buildings newly taken in hand may be mentioned those connected with the Agricultural School at Hebbal and the new General Hospital at Mysore.

8. Some interest has been taken in the Kolar, Tumkur and Hassan Districts in the restoration of minor tanks, but on the whole the results are disappointing. The value of the earthwork done by the raiyats is estimated at Rs. 71,032 and the cost of the stone and masonry work carried out by Government at Rs. 63,071, while the cost of the special establishment has been Rs. 37,952. In the maidan parts of the State, tanks are absolutely necessary for cultivation of high class crops and even for the existence of villages. A very large number of tanks were constructed in the past mostly by the enterprise of the people themselves but many of them

*General (Miscellaneous), dated 24th January 1914.*

have gone out of repair, some have breached and most of them are neglected. Experience has shown that no satisfactory progress in the restoration of minor tanks is possible if the responsibility for the restoration is thereon entirely on Government. Government therefore desire to impress upon the Deputy Commissioners the importance of stimulating local effort by the grant of special concessions such as a promise of contribution towards the cost of restoration if the raiyats are prepared to carry out the entire work or remission of wet rates for a given number of years according to the value of the work needed to restore the tank. A few cases may be sent up from each district and liberal concessions may be granted at least for the next few years in order to encourage local effort. The progress of works for which concessions have been given should be watched and briefly referred to in future reports. With a view to provide an adequate staff to carry out an extensive programme for the restoration of minor tanks and to help the raiyats in preparing the estimates of work and obtaining professional advice, the question of the revision of the Maramat establishment is under consideration. Government have also provided an increased allotment of funds for the restoration of minor tanks.

9. The administration of the Department was maintained at a high state of efficiency during the year, for which credit is due to the Officiating Chief Engineer, the Deputy Chief Engineer and the officers subordinate to them.

Letter No. 4492—637, dated 14th January 1913, from the Comptroller, Mysore Government.

I have the honor to state that, under Government Order No. G. 7409-31—G. M. 291-06-4, dated the 29th May 1907, the cost of stationery articles supplied by the Stationery Depot to Presidents of Municipalities is adjusted in this office by debit to Local Funds and credit to the Stationery Depot, on receipt of bills from the Superintendent of Stationery, duly countersigned by the Presidents concerned. But, under this arrangement, the Presidents of the Municipal Councils are not in a position to know when the debit would be passed on to them: and as no record of the expenditure incurred on account of stationery articles is at present maintained by them the total contingent expenditure for the year will not be known by them till intimation of adjustments made in the books of this office is communicated to them, that is to say, a few months after the close of the year to which the transactions relate. There can be no objection on the part of the Superintendent, Government Stationery, for sending bills to the Presidents along with the supply of stationery made to them and claiming payments therefor at once, and it is well that the Presidents of the Municipal Boards should directly make payments as soon as supplies are received, by cheques in favour of the Treasury Officers concerned for credit to "Stationery." The invoices accompanying the articles with the bill of cost will be prepared by the Superintendent, Government Stationery, in triplicate as heretofore; one copy will be retained by him as his office copy, and out of the duplicates sent to the Presidents one will be kept by the President to support the contingent charge in his accounts and the other duly accepted by him will be sent to the Superintendent, with endorsement of the number and date of cheque on which the transfer payment is made, for his information.

This procedure may be extended to the supplies of stationery made to Presidents of District Boards and President, Kolar Gold Fields Sanitary Board.

No. G. 5151-63—G. M. 53-12-63, DATED BANGALORE, 12TH JANUARY 1914.

ORDER THEREON.—The Presidents of District and Municipal Boards and the President of the Kolar Gold Fields Sanitary Board, who were consulted on the above subject, consider that the procedure suggested by the Comptroller is convenient and may be introduced. Government are accordingly pleased to direct that the same be adopted with effect from the 1st July 1914.

With regard to the Sringeri Municipality, however, the procedure now in vogue will be continued.

2. Note dated the 18th February 1913, by the Public Works Secretary submitting, for approval, an improved modified design for the Hospital together with an abstract estimate amounting to Rs. 35,000 for constructing the foundation and basement of the structure.

3. Further note dated the 24th November 1913, by the Public Works Secretary submitting, for orders, alternative estimates for constructing the General Hospital.

---

No. 5-9—17-21, DATED BANGALORE, 3RD JANUARY 1914.

ORDER THEREON.—Government having approved of the designs for the General Hospital at Mysore in March 1913, the Superintending Engineer was requested to start the foundation and complete the work to basement level on a rough estimate amounting to Rs. 35,000, pending the submission of and sanction to a comprehensive estimate duly elaborated in all detail.

2. The Chief Engineer has now submitted alternative estimates as shewn below:—

| | Estimated amount |
|---|---|
| | Rs. |
| (1) Constructing the General Hospital as a whole ... | 3,65,000 |
| (2) Constructing the front block only for the present, the rear wards being taken up later on ... ... | 2,63,000 |

After a careful consideration of the alternative estimates prepared for the building, Government are pleased to sanction the larger estimate amounting to Rs. 3,65,000. When the Hospital is completed and thoroughly equipped, it may be possible to abolish some of the Dispensaries in Mysore.

3. It is the express desire of Government that the building should be constructed with all possible expedition, and in this view, sufficient funds should be provided so that it may be completed within two years.

2. Government Proceedings No. 6664-7—Mi. 233-08-19 dated the 14th March 1912, observing that the question of shifting the town from its present position was not viewed with favour by the townspeople and that the Chief Engineer also considered it undesirable to remove the town bodily to a new site, and directing that the proposals, then formulated to carry out certain improvements to the town, as detailed in the margin, at a roughly estimated cost of Rs. 7,200, be approved and that the necessary detailed estimates prepared so that the works might be put in hand at once.

---

No. 87-93—443-9 DATED BANGALORE, 16TH JANUARY 1914.

ORDER THEREON.—As directed in Government Order dated the 14th March 1912 read above, detailed plans and estimates for a fairly satisfactory water supply and for the sanitary improvements to the Hiriyur town have now been submitted by the Chief Engineer. The cost of the works, which it is immediately necessary to carry out, is estimated at Rs. 15,000 as specified below:—

| | Rs. |
|---|---|
| (1) Cutting a trench to divert seepage and percolation ... | 407 |
| (2) Improving the gradients of two hallas ... | 457 |
| (3) Constructing a tunnel across the jungle stream on west ... | 397 |
| (4) Filling up insanitary pits close to inhabited houses ... | 1,500 |
| (5) Acquiring lands for the extension of the town and prohibiting wet cultivation ... | 1,000 |
| (6) Water supply ... | 9,272 |
| (7) Removing prickly pear and contingencies ... | 1,967 |
| Total ... | 15,000 |

Items (4) and (5), now added, are essential for the satisfactory completion of the improvements contemplated.

2. As the water supply with filtering arrangements is estimated to cost more than Rs. 15,000 by itself, Government consider that this elaboration is not just now needed for a town like Hiriyur. A combined storage with subsidence basin to contain 10 days' supply is all that is considered necessary to meet immediate requirements. The installation of filters and subsidiary improvements may be thought of later on, and so, the present estimate is accepted.

3. In these circumstances, Government have been pleased to accord sanction to the estimates, aggregating Rs. 15,000, as detailed in paragraph 1 above.

4. The charges for the annual maintenance of the water supply amount to Rs. 760 and the cost of water supplied from the Marikanave right bank canal comes to Rs. 720 per annum. The latter rate being considered high, it will be fixed at Rs. 100 per annum, for the present, subject to revision at the end of the next five years. The Municipality should find funds to meet the annual recurring charges which amount to Rs. 760+100 or Rs. 860 in all.

*Public Works, dated 16th January 1914.*

5. Even after carrying out the improvements now sanctioned, there will still remain the insanitary ditch of the old Hiriyur fort and the thick growth of cactus and weeds on the river sides and reeds in the river bed, the complete extermination of which cannot now be undertaken at a moderate outlay. It is, however, hoped that the Hiriyur town Municipality will, in co-operation with the townspeople, pay particular attention to the removal of the noxious weeds and reeds.

6. The work may be started at once and completed as early as practicable. The funds required for expenditure during the year will be provided in the General Reappropriation Statement for the current official year.

2. Note dated the 14th October 1913 by the Public Works Secretary, submitting the above estimates for sanction and recommending that their cost be met, as a special case, from the Local Funds General.

No. 70-5—362-7, DATED BANGALORE, 15TH JANUARY 1914.

ORDER THEREON.—The condition of provincial roads, fifteen miles round Bangalore and ten miles round Mysore, having been found unsatisfactory, it was considered necessary to improve those portions by recoating with metal. Special repair estimates aggregating Rs. 66,119 in cost were therefore sanctioned by Government in May 1913 to put them into thorough order.

2. Portions of District Fund roads, within a radius of fifteen miles round Bangalore and ten miles round Mysore, are required to be similarly treated as their proximity to the capital cities subjects them to greater wear than District Fund roads elsewhere. But the District Boards of Bangalore and Mysore, who were consulted in the matter, are unable to provide the requisite funds from their slender resources. Nevertheless, the roads in question are required to be maintained in a satisfactory condition as they are connected with the two important cities. Government are therefore pleased to sanction estimates aggregating Rs. 72,049 for the special repairs of the roads in question, the expenditure being spread over three years.

3. As regards the source from which the special grant required for the purpose is to be met, Government are of opinion that the entire charge should not be thrown upon the Local Funds General which are meant to be reserved for other definite objects. An annual allotment of Rs. 25,000 is sanctioned for the special repairs of the roads for the three years commencing from 1913-14, one-half being charged to the Local Funds General and the other half being given as a contribution from the Public Works Budget. The requisite provision should be made in the respective budgets.

4. The Superintending Engineer, Southern Circle, is requested to expedite the submission of the special repair estimates for, (1) the Bangalore-Suburban road and (2) the Bangalore-Nandydrug road.

Letter No. 8548 dated the 28th November 1913, from the Superintending Engineer, Northern Circle, resubmitting, for sanction, a modified estimate amounting to Rs. 8,658 for improving the irrigation channels below the Ranikere tank, Registered No. 467 of Challakere Taluk.

2. Public Works Secretary's note No. 17 dated the 7th January 1914, submitting the above estimate for sanction.

"I submit herewith an estimate amounting to Rs. 8,658 for the above work.

2. The construction of Ranikere tank and channels was completed in 1907 at an aggregate outlay of Rs. 2,68,000.

The tank was intended to store 2,062 units of water sufficient for the irrigation of 2,100 acres and expected to yield a revenue of Rs. 10,000.

There are two irrigation channels 8 and 7 miles respectively, on the left and right banks, the former commanding 1,370 acres and the latter 731 acres, but so far actual irrigation is confined only up to the 2nd mile on the left channel and 5¼ miles on the right. The extents irrigated are 322 and 605 acres respectively, below the two channels. The anticipations of increase of revenue have not been realised.

3. This unfavourable result is seen to be due to deficient supply from the catchment, the sparseness of population and the neglected condition of the irrigation channels. The maximum supply received in the tank was 7 feet below the full tank level, representing about 850 units against 2,062 units of full tank capacity. The yield from this black cotton soil country, with very scanty rainfall, was evidently overestimated as in the case of the Marikanave reservoir and many a large tank in the Pavagada Taluk There is not sufficient population to cultivate all the land under command and what little can be actually cultivated has not been so cultivated as the channels are not in perfect regimen. The raiyats have not attended to their maintenance. The channels are badly silted up, and owing to insufficient provision to get rid of the surface drainage and the neglected banks, there are numerous breaches along the channels. The irrigation sluices require to be increased in number and their dimensions have to be regulated with due regard to the duty expected of them.

4. So far experience has proved that no more than about 850 units can be expected to come into the reservoir and about 1,275 acres is the maximum of land that can be served under the most favourable circumstances.

The raiyats of Hoshalli village are willing to take up land up to the 4th mile on the left channel while those on the right channel do not want irrigation beyond 5¼ miles. The area commanded in these reaches will be 741+605 or 1,346 acres, and after due allowance for land above grade level and unculturable waste, we shall just have about 1,200 acres of irrigation. Work will therefore be confined to these reaches.

5. The improvements proposed are briefly:—

(1) the removal of silt and strengthening of channel banks,
(2) the extensions and improvements of relieving weirs,
(3) provision of locking arrangements to outlets to prevent waste, and
(4) additions and improvements to outlet sluices.

6. The cost of the improvements is Rs. 4,301 for the left and Rs. 4,357 for the right channel, in all Rs. 8,658, of which Rs. 1,982 will be recovered from raiyats for neglect of maintenance.

Rupees 6,676 will then represent Government share of work.

The works proposed are urgently required and there is a provision of Rs. 8,000 for the improvements in the current year's budget.

7. The favour of early sanction is solicited."

No. 100-4—495-9 DATED BANGALORE, 17TH JANUARY 1914.

ORDER THEREON.—The estimate submitted with the note read above is sanctioned for Rs. 8,658 as detailed below:—

2. The Deputy Commissioner of Chitaldrug District is requested to arrange for the early recovery of the sum of Rs. 1,982 chargeable to the raiyats on account of neglect of maintenance.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Railways, dated 26th January 1914.*

READ—

Note No. 177, dated the 8th December 1913, from the Secretary for Railways, soliciting sanction to certain proposals regarding the erection locally of the coaching stock required for the Bangalore-Chikballapur Light Railway.

2. Letter No. 4173, dated 13th January 1914, from the Chairman of the Bangalore-Chikballapur Light Railway Company, communicating the approval of the Board of Directors of the Company to the proposals.

---

No. 905-07—Ry. F. 167-13-14, CAMP SHIMOGA, DATED 26TH JANUARY 1914.

ORDER THEREON.—In connection with the coaching stock required for the Bangalore-Chikballapur Light Railway, the tenders received from Messrs. Burn & Co., Howrah, and Messrs. Kerr Stuart & Co., London, require consideration. The former have quoted separately for the finished coaches and the steel work respectively, whereas the latter quote for the steel work only. Messrs. Burn & Co. require 12 months for the completion of the coaches, and their rates for the steel work are higher than those of Messrs. Kerr Stuart & Co. In these circumstances, the Board of Directors of the Bangalore-Chikballapur Light Railway Company have agreed to accept Messrs. Kerr Stuart & Co.'s tender for the steel work only, if Government undertake to build the coaches locally at a total cost not exceeding the prices quoted by Messrs. Burn & Co. In consideration of the opportunities which the construction of the coaches would afford the people to be trained in such work, Government are pleased to direct,

(1) that the Directors of the Bangalore-Chikballapur Light Railway Company be guaranteed against the loss, if any, due to the acceptance of the tender of Messrs. Kerr Stuart & Co., and

(2) that further arrangements be made for the erection of the coaching stock locally.

2. Further proposals for the organization of workshops and other measures necessary to carry out the work should be submitted early.

E. A. S. BELL,
*Secretary for Railways.*

To—The Financial Secretary to the Government of Mysore.
The Comptroller of Mysore, Public Works and Railway Branch.
The Engineer-in-Chief, State Railway Construction Department.
